LIONS ESCAPE FROM CIRCUS; NOW MENACE CIRCUS, IOWA

Charles City, Ia., July 1.—An automobile party has left here to join in the hunt with citizens of Osage for lions supposed to be at large in that vicinity and state that everywhere they went they found men with guns on the lookout, several men asserting they had seen the animals. The tracks are said to be undisputable.

Bloodhounds were placed upon the trail but nothing was accomplished.

It is reported that two lions escaped from a circus near Manchester last week and two empty crates were received recently at Mason City and it is thought it is from this source the lions came.

Prepare For War of Words or Words of War With the Latest Dictionary.

About the stove in the country stores, in the smoking rooms of clubs and hotels, during leisure minutes in thousands of business houses and hundreds of thousands of homes, words of war form the basis of arguments which often become wars of words.

You know it to be true. Over your after dinner cigar or pipe you have engaged in the most heated of arguments over the fighting qualities and equipment of the different nations of the world.

You could not be more in earnest if the matter vitally affected your personal welfare, and you come as hotly to the defense of condemnation of Mexican or revolutionist, of Russian, Chinese or Jap, American, German, Englishman, Irishman, Turk, Spaniard, Moor or Persian.

With weighty wisdom you ponder on what the powers should do, consider the plausibility of the peace plans, wonder at England's fear of German invasion, debate about the size and wisdom of increasing the armies and navies of the world and forget all about who leads the national league in your eagerness to determine the fate of nations.

Then at times you forget to listen to one of those dear old souls who seems not to know the war is over. You hear again of the days of '61 and grow sentimental, as the veteran tells of his mother's prayer when he departed, and of the boys who fought like men. But the peaceful consideration of the past in sure to be broken up at last by some arguments as to how and when, and why and thus, this all occurred; how many fought, how many died, and who was in command.

Don't let argument rout sentiment. End your arguments by supporting your contentions with the statements of fact contained in the dictionary that is more than a dictionary.

The Herald's book contains historical information and present day facts about the armies, navies and government of the world.

You can get this book for only six dictionary coupons, which you will find on another page. The Herald's distribution of this little book will soon close. Read every word of the advertisement in this issue and present that coupon today.

How to Make Your Hair Beautiful

Ten Minutes' Home Treatment Works Wonders. Stops Falling Hair, Itching Scalp and Dandruff and Makes the Hair Soft, Brilliant, Lustrous and Fluffy.

Better than all the so-called "hair tonics" in the world is a simple old fashioned home recipe consisting of plain Ray Rum, Lavona (de composer), and a little Menthol Crystals. These three mixed at home in a few minutes, work wonders with any scalp. Try it just one night and see. Get from your drugist 2 oz. Lavona, 6 oz. Ray Rum and 4 dr. Menthol Crystals. Dissolve the Crystals in the Ray Rum and pour in an 8 oz. bottle. Then add the Lavona, shake well and let it stand for an hour before using. Apply it by putting a little of the mixture on a soft cloth. Draw this cloth slowly through the hair, taking just one small strand at a time. This cleanses the hair and scalp of dirt, dust and excessive oil and makes the hair delightfully soft, lustrous and fluffy. To stop the hair from falling and to make it grow again rub the lotion briskly into the scalp with the finger tips or a medium stiff brush. Apply night and morning. A few days use and you cannot find a single loose or straggling hair. They will be locked on your scalp as tight as a vice. Dandruff will disappear and itching cease. In ten days you will find fine downy new hair sprouting up all over your scalp and this new hair will grow with wonderful rapidity.

Any drugist can sell you the above. The prescription is very inexpensive and we know of nothing as effective and certain in its result.—Advertisement.
